

## ***EDS-T500***

### *Air Table*

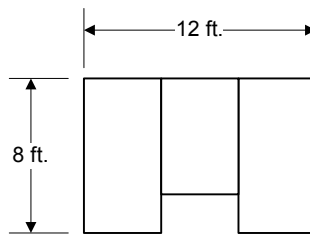

Air table from Gribetz is the perfect complement to any Gribetz sewing workstation where operator strain due to heavy-quilted foam panels is a concern.

SPECIFICATIONS	EDS-T500
Height min	28" (71 cm)
Height max	34" (86 cm)
Current	220, 1 ph
Horsepower	1.5
Amps	10
Weight (gross)	1100 lbs (2425 kg)
Shipping dimensions	99 X 51 X 79" (251 X 130 X 200 cm)

The EDS-T500 air table will float the heaviest/most dense quilted panels during the flanging, binding, and blind-stitching processes.

- Low noise with extremely high air stream capacity.
- Independently delivers pressurized air through holes in the table.
- Operator fatigue is reduced due to air lifting the panel off the surface and minimizing its weight.
- Includes 1.5 hp blower.
- The adjustable frame can be set up for either sitting or standing operation.

Gribetz® is the world's leading mattress machinery manufacturer with over a century of experience in machine design. Through rigorous stress and strain analyses, and 3D modeling, our engineering team prides itself in building the most durable state of the art machinery in the industry. We specialize in manufacturing high tech computerized quilting machines, panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
