The BCL-200 closes borders quickly and neatly. Ensure you finish this border-production step with high quality and efficiency before moving on to your next operation. The BCL-200 is the ideal machine for quick, simple border closing.

- One-pass closing with tandem stitching.
- Greatly deskills border-closing operation.
- Optional photo sensor or manual foot pedal available to start cycle.
- Automatically thread trim for standard or FR thread.

Gribetz® is the world's leading mattress machinery manufacturer with over a century of experience in machine design. Through rigorous stress and strain analyses, and 3D modeling, our engineering team prides itself in building the most durable state of the art machinery in the industry. We specialize in manufacturing high tech computerized quilting machines, panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
